(7:30, p.m. 14, June)

Recently, the Tapanese air force, has carried out repeated bombing attacks Chungking. The wily Chinese, however, have intentionally built their sir-defense betteries and other military constructions side in side with the various establishments of the Third Forces standing in arc near the city, thus presenting enormous inconvenence to our attack. Therefore the Imperial Government, for fear of involving casual damage to the governmental as well as civi 's rights and interests of these Third Powers, has submitted notes on this 14th day to the Governments of Pritain, Trance, Germany, Relgium, W.S.S.R, W.S.A. etc. In these notes the Imperial Government recommended the gover cover ments to take adequate and prompt steps for the terrorary refuse of their nationals to some safe area until the termination of the repanese attack on Chungking. At the sare time it was also notified formally that the Japanese forces would undertake not to attack a certain specified ougston lains on the south
